POBCO Sprockets

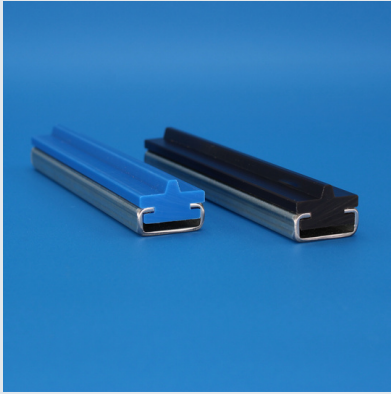

POBCO offers a wide range of sprockets including Roller Chain Sprockets, Table Top and Tab Chain Sprockets, AG Chain Sprockets, Flat Wire Belt Sprockets, and Plastic Sprockets. Machined and Molded options available in a variety of materials.

POBCO Locking Collars

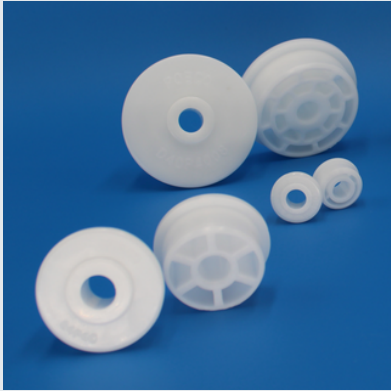

POBCO Locking Collars are offered in one and two piece styles, round and square options. Many sizes available. Also available in other plastic and hardwood materials.

POBCO Belt Guides

Plastic inserts available in a variety of POBCO materials including POBCO UHMW, POBCO Plus (Fluid Lube-Filled UHMW), POBCO SRU (Static-Reduced UHMW), POBCO-AW (Low Friction Blue Lube-Filled UHMW).

POBCO Delrin® Roll End Bearings

POBCO Molded Delrin Roll End Bearings are the light duty, low cost option to machined Bearing options. Many sizes in stock in large volume.

POBCO Pulleys

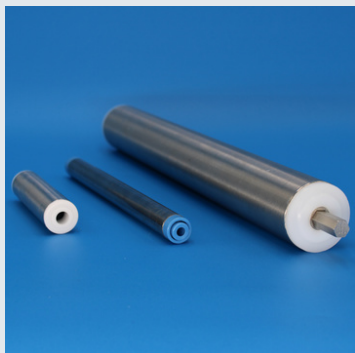

POBCO stocks a variety of pulley styles including Spool Style, Plastic Ball Bearing, Thermoplastic Idler, and UHMW All Plastic. Stocked in a variety of sizes.

POBCO Support Components

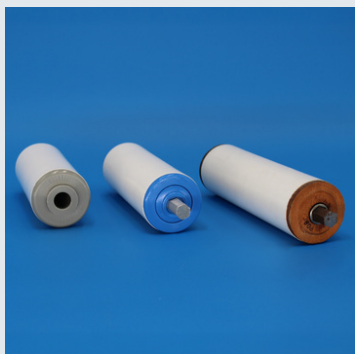

POBCO Support Components are often stocked in high volume and ready to ship. View our full product lines of mounting brackets, corss blocks, support rods, clips, clips and more at www.pobcoplastics.com

POBCO Conveyor Rollers

Stainless Steel Rollers

POBCO's Stainless Steel Conveyor Rollers are constructed of a variety of stainless pipe and tubing, along with UHMW or Delrin roll end bearings. Made in multiple diameters and lengths.

Standard Selection PVC Rollers

POBCO's PVC Rollers are constructed of schedule 40 PVC pipe and UHMW, molded Delrin, or Molded Nylon roll end bearings. These rollers are suitable for most general purpose applications and come in multiple lengths and sizes.

Dual Durometer Rollers

POBCO's Dual Durometer Rollers are offered with a hard 75D (red) antifriction urethane core, with a softer 90A (yellow) outer roller surface. They are an economical option for wheels, rollers, casters, spacers, etc.

POBCO Transfer Plates and Roller Combiners

See all part numbers and sizes available on www.pobcoplastics.com

Transfer Plate Materials and Information:

- Grey Acetal Plate
- Grey Acetal Rollers/ 304 Stainless Steel Rollers
- 304 Stainless Hardware
- Easy to Assemble
- Mounting Bolts Included
- Low Friction, Minimal Noise, Easy to Clean
- Replacement Rollers #PP84131

POBCO Roller Guide dimensions are metric.

Constructed of Stainless back plate and Stainless pins.
Rollers are natural color acetal plastic. Available lengths are 1000mm, 2000mm, 3000mm.
